## If you're an employer or have control over a workplace, you have responsibilities under UK Fire Safety Law.

It's your duty to take reasonable steps to reduce the risk of fire in your workplace and to make sure people can escape safely in the event of a fire.

All doors should provide an adequate means of escape should a fire occur; making it vital to ensure they're regularly serviced and maintained. It's the equivalent of breakdown cover on a car (as well an essential requirement of many insurance policies).

DOORCARE, our service and maintenance plan designed specifically for doors, can help. We offer:

- **Unbeaten expertise** – no other fire protection company in the UK holds as many accreditations from third parties as we do. You can relax in the knowledge you're protected by fully accredited, competent engineers.

- **Complete protection** – 24 hours a day, 7 days a week, 365 days a year. Absolute peace of mind comes from working with us – trusted, total fire protection around the clock.

- **Choice** – We'll agree a bespoke service level agreement, so you can tell us which elements of your package are most important to you.

- **Advice** – We'll give you plenty of information, unbiased advice and provide options to suit your workplace and your budget - readiness to listen and understand is what sets us apart.

# Are your existing doors covered?

- Johnson Controls have skilled personnel that repair and perform maintenance on your existing doors.
- We can convert, modify or upgrade a wide range of hinged doors, sectional overhead doors and roller shutters with powered devices and safety systems to protect personnel and ensure compliance. These systems allow the opening and closing of doors without the need for physical effort, eliminating all access problems at a stroke.
- Our door engineers have an enviable reputation for converting, modifying, or upgrading a wide range of swing sliding and bi-folding glazed doors with minimum disruption to business schedules.

# Johnson Controls

Any door, any make, anywhere, any time

## Why choose Johnson Controls?

- We conform to LPS 1197: issue 3, listed and approved by the LPCB.
- We have been awarded the coveted Door and Hardware Federation Quality Mark.
- Our activities are independently audited and executed under BS EN ISO 9001:2000.
- Our automatic door technicians are trained to BS7036 and we are listed as associate members of ADSA – the Automatic Door Suppliers Association.
- Our engineers, surveyors and salesmen are trained to National Group Safety Passport and Food Safety IOSHSPA Passport Standards.
- Our UK Call Centre is fully manned 24 hours a day, 7 days a week, 365 days a year.
